General Comments

“Wongajong” breeds SuperBorder\$ rams that are valued by first-cross breeders for their extra growth and for the support they get in selling their first-cross ewes. MLA expects higher lamb prices in 2008 and continued growth through to 2012. “Wongajong” Borders provide an opportunity to be part of the future of this great Australian Lamb Industry. “Wongajong’s” continual improvement in genetics are sought after by first-cross breeders to provide the productivity gain that is recognised as essential to modern lamb production.
